

RMCOSA GUEST HOUSE

RMCOSA /RMCANA appreciate the kind and generous contribution of \$35,000 by the RMCANA members for completion of our RMCOSA guest house.

This building was built in a 2000 Sq. yard land situated on the eastern side of RMC men's hostel. This building has two floors, Ground floor is about 4000+ Sq. ft. and the first floor is about 4000+ sq.ft in area. This is a full service and well-furnished facility with individual suites, kitchen and dining hall. This complex has an open auditorium which can be used for small functions. This building is a multipurpose facility and can be used by RMCANA and RMCOSA members and also the parents of current RMC students during their visits to Kakinada. Private parties can also use this facility based on the availability by prior reservation and all the occupants will be charged for the stay. These funds will be used for RMC/RMCOSA activities as decided by the executive committee.

This project was approved by RMCOSA in 1993 but was delayed due to lack of funds. Dr.K.L.Narayna, RMCOSA president (2010) took it as a personal challenge and pledged to complete the project during his term. We are delighted to announce the near completion of RMCOSA Guest House building.

Please make use of the facility when you visit Kakinada, India..
